

BUGS AT HOME

Are not the kind of company we are very much inclined to be hospitable with, in fact we are very much desirous to find the best methods, WITHOUT OFFENDING THEM, in politely informing them their absence is preferable to their company. Now the most positive and permanent means that we can highly recommend, is to procure a bottle of our

Rough-on-Bugs

and thoroughly spray into the different parts of the house, where the bug is inclined to romp and make it his favorite place to lounge about and annoy you.

Rough-on-Bugs.....

plays no favorites and it "will put out of business" any and all kinds of bugs, germs and insects.

In its death dealing operations it will not destroy any article of dress or furniture, and is simply used by inserting the nozzle, which accompanies every bottle, and spray as before mentioned. This bug destroyer has been a good friend to a great many people for a long time, but no friend to the bug.

DOCTOR BILLS HAVE BEEN PAID

ATTORNEY FOR STANFORD ESTATE DENIES STORY FROM HONOLULU THAT CLAIMS HAVE BEEN DISALLOWED.

SAN FRANCISCO, August 24.—In a cable from Honolulu a sensational story is related about an effort by agents of the Stanford estate to induce the autopsy surgeon and the physicians who attended Mrs. Stanford at the time of her death to modify their first statements in regard to strychnine poison symptoms, which, it was asserted, they had found. The statement was based upon the rejection of a claim by Dr. C. B. Wood, who performed the autopsy, for remuneration. Attorney Mountford S. Wilson and Captain Callundan deny that any such effort has been made. The cablegram reads:

"The death of Mrs. Jane L. Stanford has been recalled by a sensational story published here to the effect that representatives of the Stanford estate have practically offered monetary inducements to local physicians to change their opinion that strychnine caused the death of Mrs. Stanford."

"It is alleged that the bill of \$150 of Dr. C. B. Wood, who performed the autopsy on the body of Mrs. Stanford, has been refused payment by the estate on the ground that the territorial authorities should have performed the autopsy. Dr. Wood declares that he was employed on behalf of the estate by Dr. Humphris, and the latter said that he considered the refusal to pay Dr. Wood to be amazing, as he considered the employment of a private autopsy physician to be proper."

"The Star, in its story of the matter, says that in different interviews a representative of the estate indicated to the physicians that it would be satisfactory to the estate if they could revise their findings of poisoning, and in such event their bills would not be questioned and that Drs. Humphris, Day and Wood would be each paid the amounts of their claims of \$150 each."

"All three doctors are preparing a statement to place their version of the scientific facts of the case before the public in final justification of their decision concerning the cause of the death of Mrs. Stanford."

"I do not know," said Attorney Wilson, "that Dr. Wood has made a claim for remuneration for his services as an autopsy physician. There was a claim for Wood & Day, who are partners, for \$150, which has been paid. In fact, all the physicians connected with the last illness of Mrs. Stanford have been paid. It is hardly reasonable to expect the estate to compensate the autopsy surgeon who was acting for the government. The intimation that an effort

THE FIRST ACT OF THE SERENADE

REHEARSAL LAST NIGHT AT THE OPERA HOUSE—COSTUMES ARE ABOUT DONE.

The first act of the Serenade was rehearsed last night at the Hawaiian Opera House under the most promising circumstances, the chorus and principals showing the result of attentive instruction on the part of Hugo Herzer under whose able direction the opera is to be presented.

Dialogue and stage business were gone through and many weak points patched up, until the greatest improvement was noticed. One thing that would please the management very much is a lack of visitors at rehearsals, and they take this occasion to say that no visitors whatsoever will be allowed at any of the rehearsals.

Some changes in the organization of the fire department have been made. Instead of a former there is now a captain and a lieutenant in each company. This always insures some one in command. The Assistant Chief is also relieved from duty as foreman of a company giving him more opportunity to assist the chief. Some changes in uniform are in contemplation.

Amateurs find it hard enough to sing to empty chairs when they haven't the make up, and stage setting to help them, and sometimes, misjudged impressions are given that often hurt the financial end of a show by visitors criticizing performers before they have really seen them perform. An opportunity will be given everybody when the box office opens to buy their tickets and and just criticism will not be dispensed after the first performance.

The costumes are about due and the chorus and principals will lose no time in fitting themselves out for their first performance. Quite a number of the wise theater-goers are already leaving their names with the Messenger Service to engage them seats, and while there is room for everybody it is always a good plan to know just where you are going to sit. Rehearsals will continue next week on Monday, Wednesday and Friday evenings when final touches will be added and the production put into its proper shape.

FIRE DEPARTMENT.

Some changes in the organization of the fire department have been made. Instead of a former there is now a captain and a lieutenant in each company. This always insures some one in command. TRY Paine's Celery Compound TODAY

Take just one dose when you go to face the hard part of the day's trials. See how much better you feel. See how much more easily the trials roll away. Paine's Celery Compound is not a mere stimulant—it gives to the nerves the actual substance that they need for food, building them up and giving them strength. In this way it gives real nerve activity, instead of the false activity imparted by mere stimulants. It is the best and quickest spring tonic.

"I had to overwork, being employed night and day for more than a week. I ran down and was very weak. I was so tired that I thought I would never think of work again. A friend recommended Paine's Celery Compound and it certainly did me a world of good. Right AT ONCE I began to feel better, and was able to go back to work in a few days. You would not think to see me that I had ever been sick and run down. I am thankful for the good that Paine's Celery Compound did for me. I am telling my friends."—Daniel Bain, 709 W. 12th St., Chicago.
